blueControl

Controller for blueSeal® air curtains

LED display and controlled module, designed to alert users to the time that doors are open, encouraging drivers to minimise the duration of door openings to ensure that goods are not compromised and reducing cooling fuel consumption.

BlueControl also makes BlueSeal a plug and play device by connecting directly to the vehicle's battery. Units feature an integrated light sensor with options for magnetic and infra red sensors to detect door openings in every possible situation. BlueControl features an integrated battery guard to ensure units will switch off when the battery drops below a certain point, set by the user.

Technical specifications

SENSOR TYPE	LIGHT SENSOR (INTEGRATED), MAGNETIC SWITCH (EXTERNAL, OPTIONAL), INFRA-RED SENSOR (EXTERNAL, OPTIONAL)
DISPLAY	4 DIGITS
BUTTONS	3
PLACEMENT ON AIR CURTAIN	RIGHT OR LEFT
INPUT VOLTAGE	10 - 28V
OUTPUT VOLTAGE	10 - 28V
PROGRAMMABLE?	YES
TIMER FUNCTION	YES
BATTERY GUARD FUNCTION	YES
