blueSeal[®]

air curtains by **brightec**

blueSeal compact

The most compact air curtain for temperature-controlled transport

The BlueSeal Compact by Brightec features a streamlined design for refrigerated vans, smaller box trucks, vehicles with roller doors and side doors.

BlueSeal Compact is smaller and lighter than its bigger brother the BlueSeal Original. Designed to fit above any rear or side loading door, this compact model features all of the benefits of BlueSeal with a height of only 87mm.
